# Youth with Complex Care Needs

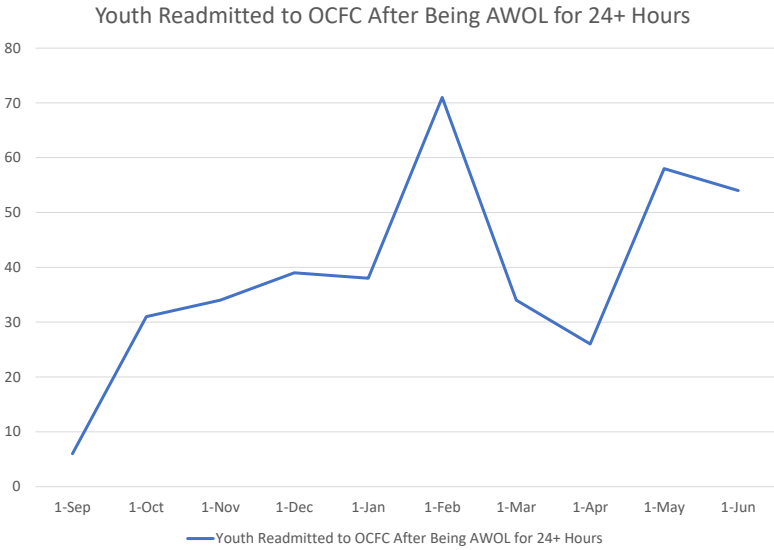

Youth in Orange County with complex care needs can exhibit the following behaviors:

- Chronic Runaway Behavior
- Substance Use
- Property Destruction
- Oppositional Defiant / Assaultive Behavior
- Criminal Behavior (pending charges)

5

# Prevalence of Complex Needs

- Over the last year, OCFC has tracked the number of youth that have AWOL'd from OCFC and were readmitted after 24 hours
- Increase of assaultive behaviors
- Property destruction at OCFC and within the local community
- Eight of the youth have been booked into Juvenile Hall after significant delinquent acts

6

## Service/Placement Gap

- 🍊 Continuum Care Reform (CCR)
  - Has led to an increased emphasis on home-based care
  - Has limited placement options
- 🍊 Increase in the Need for Substance Use Treatment
- 🍊 Short-Term Residential Therapeutic Programs (STRTPs) are Struggling
- 🍊 Preserving OCFC as Resource
- 🍊 Increased need to prevent delinquent acts and crossover to the delinquency system

7

## Collaborative Efforts with Juvenile Court, Probation, OCSD and DA

- 🍊 New High Needs Youth Multi-Disciplinary Team (MDT)
  - Consultation regarding cases of high-need youth with the purpose of:
    - Discussing appropriate placement of these youth and interventions to address behavior and keep other OCFC safe
    - Discussing the filing of delinquency charges when appropriate
    - Protecting the safety of other children (specifically younger children) at OCFC
    - To support OCFC's legal and regulatory compliance of not housing children that are dependents of WIC 602 with children that are dependents of WIC 300
  - Courtroom Consistency
  - Intensive Services Foster Care (ISFC)
  - OCFC Extra Help Positions

8

Youth with complex care needs, particularly those who exhibit extreme co-occurring behavioral and mental health issues, pose unique challenges as there are limited statewide options to provide the necessary supervision and support.

9

## Current System Demand

- 🍌 Explore improved strategies to assist our youth with complex needs to:
  - Increase placement options for these youth and reduce crossover to the justice system
  - Expand availability of substance use treatment resources
  - Identify placement alternatives that provide on-site resources and support to accommodate high needs youth falling between the dependency and delinquency systems
  - Create placement options for youth with pending criminal charges
  - Enhance OCFC safety measures for all youth

### SYSTEM OF CARE DATA INTEGRATION SYSTEM (SOCDIS)

- System of Care Data Integration System (SOCDIS) is a technology solution that facilitates data sharing between County departments to create client care plans.

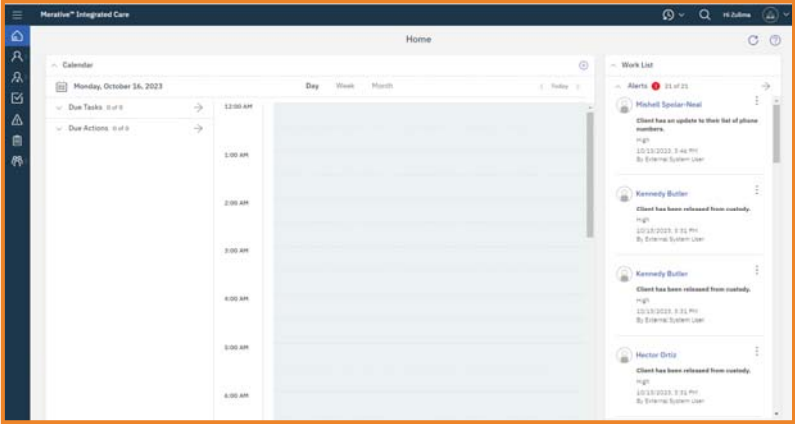

```
graph TD; subgraph Inputs; direction LR; PH[Public Health]; HS[Homeless Services]; BH[Behavioral Health]; OSD[OC Sheriff's Department]; PD[Probation Department]; SS[Social Services]; OCHA[OC Housing Authority]; end; Inputs --> Step1[Creates an Integrated Virtual Client record and Client Care Plan]; Step1 --> Step2[Technology solution identifies the "high-utilizers" of the systems]; Step2 --> Step3[Shares information across the multidisciplinary team to streamline service delivery and improve care coordination];
