# **Quarterly Report Summary**

The OC CARES system links the various systems of care in the County of Orange to provide full care coordination and services for justice-involved individuals to successfully reenter society and work towards self-sufficiency. These systems of care include behavioral health, healthcare, housing, benefits & support services, and community correction. This innovative approach was developed building on the County's efforts as part of the nationwide Stepping Up Initiative and locally developed Integrated Services Strategy. With Stepping Up, an overall strategy that focused on reducing the number of individuals with mental illness in custodial care was developed that required the integration of services from disparate county departments and community partners. This strategy was then expanded and used to create the Integrated Services – 2025 Vision (2025 Vision) implementation plan, which has been updated to serve OC CARES.

The 2025 Vision was adopted by the Board of Supervisors (Board) on October 22, 2019 and links the county criminal justice system and our systems of care to provide inmates and at-risk-individuals with the services they need to become self-determined and facilitate successful reentry.

To ensure a thorough examination of Orange County's criminal justice system, the 2025 Vision was built on five "pillars." Each pillar is made up of overarching "goals" assigned to specific departments that are tracked and implemented via "action items." The pillars and their main objectives are as follows:

- Prevention: Developing public informational and communication campaigns, interventions, and diversion opportunities, particularly related to substance use and mental health, to prevent individuals from being involved in or returning to the criminal justice system.
- 2. Courts: Enhancing or developing diversion programs, including the expanded use of Specialty Courts, for individuals in the criminal justice system from the point of arrest to sentencing.
- 3. In-Custody: Developing in-custody programming and providing access to treatments, and services to individuals residing in the County jails to address mental health, substance use, education, job readiness or other basic support that link to post-custody services, in addition to trainings to prepare them for successful reentry.
- 4. Reentry: Providing accessible and supportive services to justice-involved individuals to facilitate their reentry back into the community that includes a comprehensive coordinated system to ensure continuity in treatments or programs received while incustody and continue post custody to maintain engagement and lead to self-sufficiency.
- 5. Juvenile & Transitional Aged Youth (TAY): To provide a continuum of information, programs, and enhanced services for youth, juveniles, and the TAY population to prevent them from entering the juvenile justice system, providing options away from being detained, and to support and encourage positive outcomes outside of the juvenile justice system.

The 2025 Vision is a permanent component of Orange County's annual Strategic Financial Plan. Its oversight is provided by the Orange County Criminal Justice

Coordinating Council (OCCJCC), currently chaired by Vice-Chairman Doug Chaffee. The OCCJCC includes County departments, Courts, and local law enforcement.

Implementation of the 2025 Vision is jointly led by the Budget & Finance Director and the Director of Performance Management and Policy in the County Executive Office (CEO). During the first three years of implementation, significant progress was made through the use of targeted working groups established for Courts, Reentry, Juvenile & TAY, Strategic Legislation & Funding, and Data & Metrics and a general implementation working group which ensured coordination across departments. With the 2025 Vision in the last three years of implementation, working groups continue to provide the overall guidance and direction for the Vision and task forces are used to focus on the completion of critical projects. Maintenance and further enhancements will then transition to an established oversight group consisting of key stakeholder departments and community-based organizations.

The OCCJCC meets regularly to receive updates and collectively formulate initiatives in order to meet the needs of the target population. Revisions are approved by the OCCJCC and included in the County's Strategic Financial Plan and presented to the Board annually.

Planned OCCJCC Offsite meetings are used to address a specific topic to move the 2025 Vision forward and provide an opportunity to inform and obtain feedback from other law enforcement agencies and community providers. The 2025 Vision was a result of the OCCJCC Offsite meeting held in July 2019. A second OCCJCC Offsite was held on September 24, 2021, focusing on the reportable outcomes and performance indicators for each of the five pillars to begin to measure the success of the 2025 Vision which is in progress.

The following Quarterly Report provides a report on the current status of the identified projects and programs being implemented as part of the 2025 Vision. Whereas prior Quarterly Reports focused on Pillars, Goals and Action Items, the current report identifies the projects that are still in progress and includes a more defined timeline to ensure completion by December 2025. The table below lists the projects in progress and provides the estimated completion date. Descriptions and additional details for each project can be found in Appendices D and E.

Although significant progress has been made, efforts were impacted, and projects delayed as a result of the COVID-19 pandemic. However, the County is committed to the 2025 Vision completion date and any revisions or adjustments to the anticipated timelines have been included in the following report.

# Appendix C: Working Groups and Task Forces

Implementation of the 2025 Vision has been facilitated through the use of various working groups and task forces. Working groups were established for pillars or specific projects that crossed over several stakeholder departments. Task forces were implemented to focus on one area or project and limited to departments critical for the project. Below is a listing of the current working groups and task forces involved with the 2025 Vision.

#### **WORKING GROUPS:**

**OC CARES**: Meetings are held on an as-needed basis to address specific topics outside of the OC CARES Task Force described below.

**In-Custody:** Meetings are held monthly and focus on the status of the in-custody related projects, moving them forward, and addressing any resource needs.

**Courts**: Meetings are held monthly and focus on the status of Court-related projects, moving them forward, and policy and implementation needs.

**Reentry**: Meetings are held monthly and are working to develop the scope and types of services and programs needed for the various reentry needs identified.

**Care Management**: Meetings are scheduled monthly to focus on the development and implementation of a comprehensive care coordination program.

**Strategic Legislation & Funding**: This working group tracks legislative actions and helps guide policy to better meet the needs of the 2025 Vison including identifying how the County is measuring success and aligned with state and federal initiatives as well as identify new funding opportunities.

**Media & Public Information**: Meetings are held monthly and focus on the communication and media campaign projects identified to increase public awareness of OC CARES and the services and resources available.

**Data & Metrics**: Meetings are held every two months and work through the data elements required for the reportable outcomes and performance metrics.

#### **TASK FORCES:**

**OC CARES**: Meetings are held as needed and address all five of the County's Systems of Care to serve as a forum to share information that may impact current or future efforts and ensure any barriers to services are addressed timely and appropriately.

**Juvenile & TAY:** A task force has been established for each area under the Juvenile and TAY pillar to address 1) Prevention; 2) Courts; 3) In-Custody; and 4) Reentry. Each task force is focused on their area with identified objectives and facilitated by designated staff from the key stakeholder agencies.

# **B. Expand Specialty Courts (Adults)**

<u>Purpose</u>: Maximize the benefits of the specialty court model by increasing capacity in existing specialty courts and develop and implement additional ones to address the underlying issues associated with mental illness, substance abuse, or homelessness.

(II.3.2e)

	By June 2023	
	Analyze the data and the current programs to determine the new or expanded Adult Specialty Court.	demand for a
	Current Status: COMPLETED (MAR 2024)	% Completed
Ī	The Court continues to monitor, on a monthly basis, all	100%
	statistics associated with the Adult Specialty Court	Owner
	programs. The Court uses those figures to determine the	Courts
	adequacy of current resources and to anticipate future	(II.2.1c)
	resource needs.	
	The Court is tracking and evaluating the trends in the	
	numbers of cases for all the Collaborative Courts (including	
	the recent increases in diversion courts) to project future	
	estimates and assess needed resources. The Court is also	
	factoring in recent and proposed legislative changes that	
	are impacting these numbers and may have additional	
	impact in the future (including pending legislation to add	
	felony cases to Military Diversion).	
	Recent statutory changes continue to fuel in an increase in	
	Mental Health Diversion cases, and the Court continues to	
	monitor the pace of those cases to project future needs. To	
	meet the immediate needs, the Court is adding another half-	
	day per week to the Mental Health Diversion calendar in	
	CCB1 (bringing it to two full days per week) and has	
	recently assigned a portion of the Mental Health Diversion	
	calendar (including contested motions) to a newly appointed	
	judge in the Central Justice Center due to the lack of capacity in CCB1. The Court believes the continued	
	increase in Mental Health Diversion cases will likely	
	necessitate additional courtroom time and resources, which	
	the Court is able to absorb for the foreseeable future.	
	The stakeholders in these courts (including the DA, PD,	
	HCA, and the VA) have stepped forward by assigning	
	additional people to these courts as the capacity has	
	expanded, and the Court believes they will continue to do	
	so in the future.	
	Homeless Outreach Court (HOC) is being restructured to a	
	"provider-centered" model that will allow for earlier diversion	
	opportunities, an increase in participants, and fewer Court	
	hearings for the participants. Twelve service providers have	
	been approved for the new model. The Public Defender's	
	Office is currently working with San Diego to develop a	
	service provider app that will be accessible to participants.	
	The Court and the Stakeholders are also exploring the	
	ability to automate referrals to the HOC program. As this	
	new model is implemented, it should reduce the number of	
	hearings required in HOC, but this is not expected to have a	
	material impact on the overall Court and Stakeholder	
	resources devoted to the Adult Specialty Courts.

	that assessment and is awaiting the final report, which is expected any time now.	
	As discussed in II.B.1 above, the Court is also continually

	The Court has generated a list of adult specialty case types	
	(both criminal and civil cases involving mental health and substance use issues) appropriate for consolidation into	

one building, in order to provide wrap-around services that will increase efficiencies for the Court, County, and participants. • The Court also anticipates this new courthouse handling early triage/assessment of criminal cases at the point of arraignment to identify those defendants who may be appropriate candidates for the Specialty Courts. • In the second half of 2023, the Court worked closely with the Judicial Council, an architectural firm, and a consulting firm to allocate space in this anticipated courthouse for the court operations and all County stakeholder operations necessary to support these various calendars. The Court provided all requested input to complete the Feasibility Study, which will include building designs that allocate space for all the Court and stakeholder operations. • As of mid-January 2024, the Court had provided all the information requested for the Feasibility Study and is waiting for the Judicial Council to release the study.
