Proposition 36 Ad Hoc Update

Prop 36 Overview

"Homelessness, Drug Addiction and theft Reduction Act"

Effective December 12/18/2024 in California, Prop 36 creates two new alternative felony/misdemeanor "wobbler" offenses – a crime that can be charged as either a felony or misdemeanor.

Qualifications: Possession of a hard drug (including fentanyl, heroin, cocaine, methamphetamine, phencyclidine and their analogs) with two prior drug-related convictions (Health and Safety Code section 11395), or petty theft or shoplifting with two prior theft-related convictions (Penal Code section 666.1). There are no age limits or time restrictions on prior convictions to qualify the individual to receive the enhancements.

If narcotic related offenses, offender can opt in drug treatment to avoid jail or prison time, if they complete treatment, there is no conviction for the offense. For theft related offenses -

- Stolen values can be aggregated to meet the felony threshold
- Increase penalties for crimes involving multiple perpetrators and for property crimes with losses exceeding \$50,000

Prop 36 Overview

"Homelessness, Drug Addiction and theft Reduction Act"

Systematic Impacts:

- More resources needed from the court, OCDA, PD and HCA to create an assessment courtroom
- Felony arrest will necessitate DNA collection
- County jail time versus state prison sentences
- Mandated individual reviews by a judge to assess the defendant's risk to public safety to any pre-trial release from jail

Impacts for Offenders:

- Potential harsher penalties
- Drug treatment instead of jail time
- Stricter sentences for fentanyl trafficking, especially large-scale operations, and drug deals involving firearms
- Overall value for thefts can lead to a felony versus multiple misdemeanors

Intended Changes:

- Decreasing opioid crisis and dangers of drug trafficking
- Holds drug traffickers accountable for overdose deaths and DUI deaths associated with drug use
- Deters high value property crimes and organized criminal activity related to theft
- Decrease in use of drugs after successful treatment
- Increases public safety with individualized reviews for release
